An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home. No home is quite complete without a Perfection Oil

Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater, as there are always some cold corners in a house. The enameled heater always presents a nice appearance, as the enamel will not tamish or burn off. It is not an "enamel paint," but it

is the same as the enamel of your cooking utensils, The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.

PERFECTION SMOKELESS OIL HEATER

Dealers everywhere. Ask yours to show you the Perfection Heater manualed; or write for descriptive circular to any agency of Standard Oil Company
